

Calpeda MXA404M Pump

The Calpeda MXA404M pump is ideal for a house with 2-3 bathrooms. The best installation is for the pump to be beside the water supply tank and pumping to the house. The pump has a maximum pressure of 45M (64PSI) dead head and a maximum flow rate of 110 Lt/min at 15M 21PSI). The Calpeda MXA404M has 25mm inlet and outlet and coupled to a 0.75kW single phase motor.
